

Flying Fleet Configuration

**Notes:**

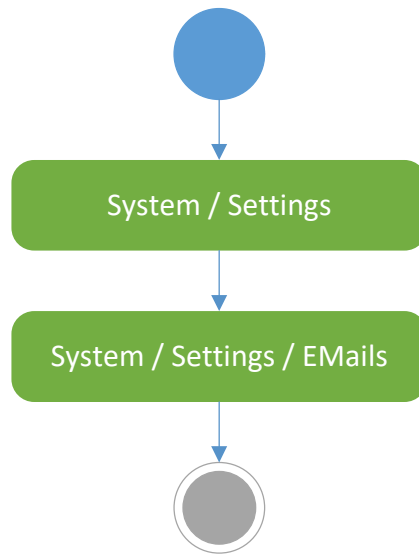

To keep the document small, all is written in English and the setup is expected to be done in English.

Activities with dotted borders => a page with more details is available.

While the order of operation should be followed, in some cases you will have to go back to other pages to finalize the setup.

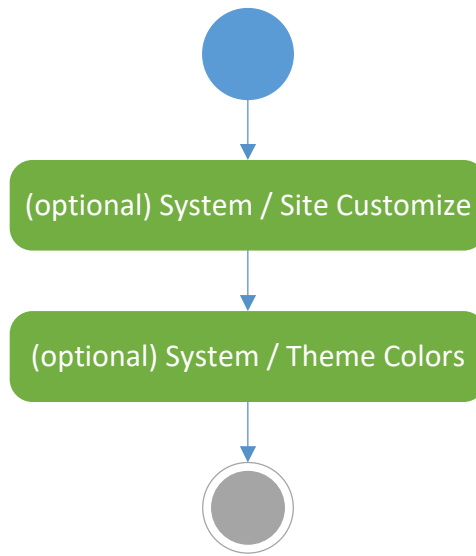

Online help may contain additional information on the given pages.

Settings

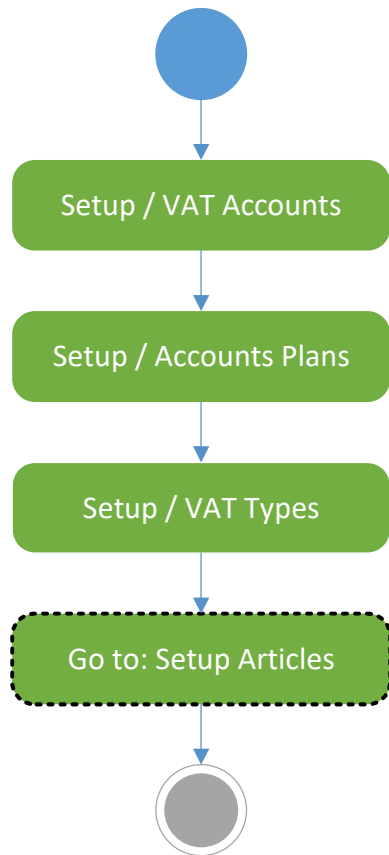

**Notes:**

Latitude / Longitude are used for the meteo as well as for the sun rise / sun set calculation

Customizations

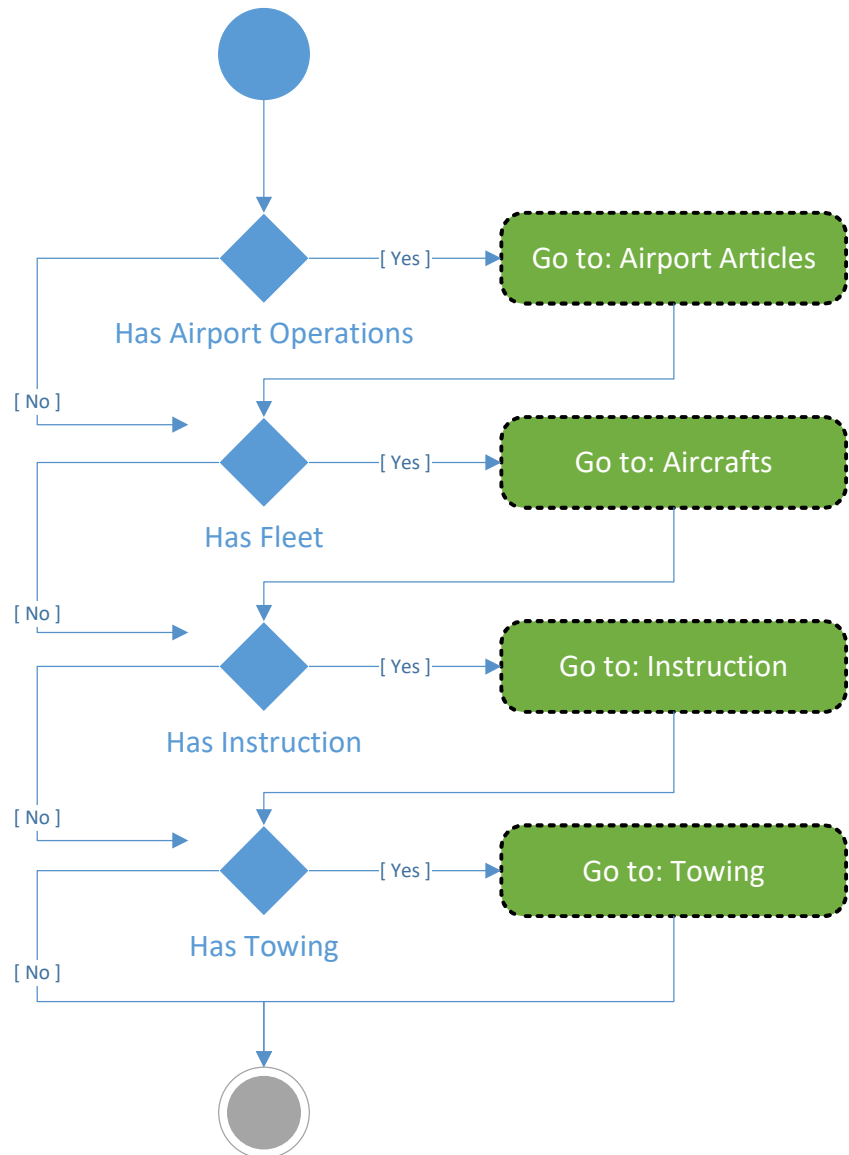

Financial Setup

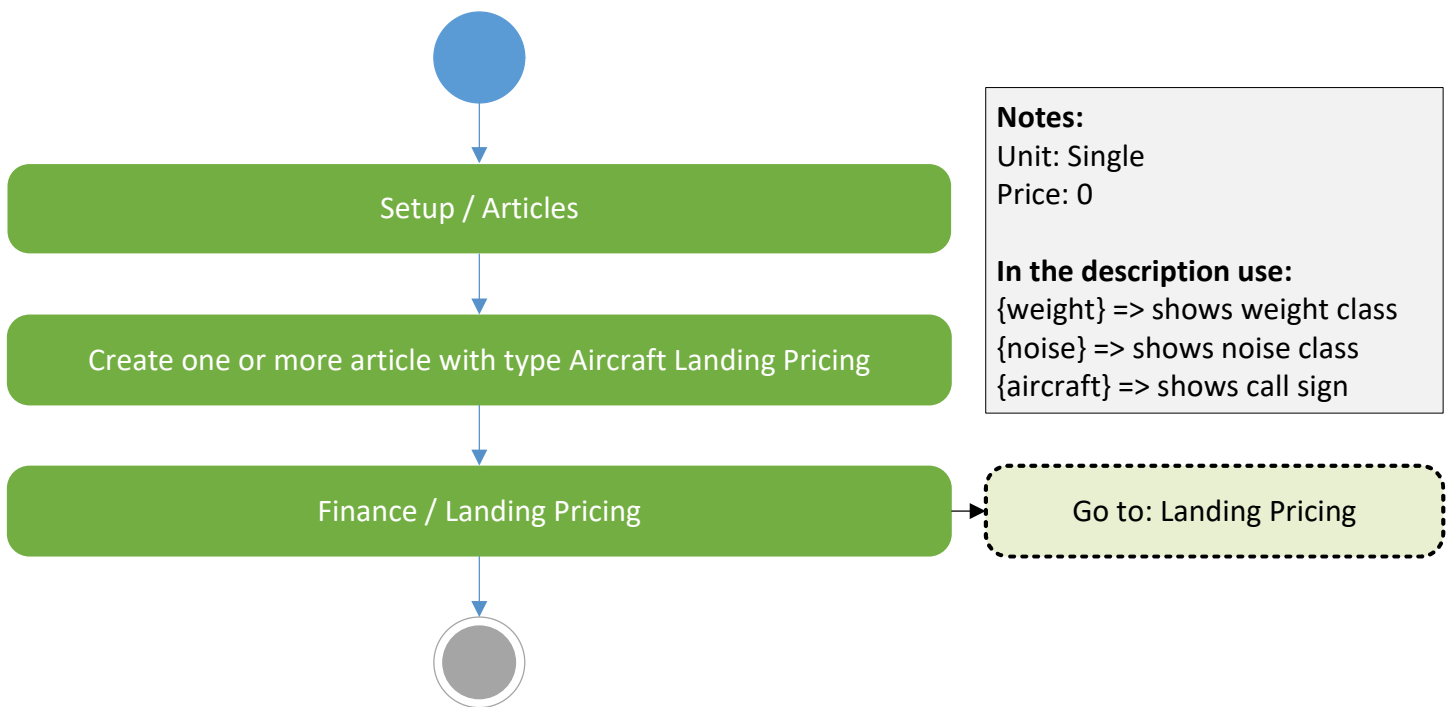

**Notes:**

Requires at least one account in the account plan and one vat type for further operations
